DETAILED ACTION

On June 1, 2007, an Office Action was sent to the Applicant rejecting claims 1-29. On August 22, 2007, the Applicant responded with arguments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Delfer (5,496,991) in view of Pintsov (5,586,036), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed August 22, 2007 have been fully considered but they are not persuasive. The Applicant argues that neither Delfer nor Pintsov discloses or teaches scanning by the post the code on the mail piece before the mail piece is delivered to the creditor; creating an electronic funds transaction for the amount

indicated in the code between the bill recipient's bank account and the creditor's bank account; or transferring funds from the bill recipient's bank account to the creditor's bank account. In response, Pintsov discloses scanning by the post the code on the mail piece before the mail piece is delivered to the creditor (the bill is scanned and payment by mailer is made through electronic funds transfer—col.8, lines). Delfer discloses creating an electronic funds transaction for the amount indicated in the code between the bill recipient's bank account and the creditor's bank account (consumer pre-authorization for funds transfer transaction—col.4, lines 8-10) and transferring funds from the bill recipient's bank account to the creditor's bank account (biller service provider transfers funds into appropriate vendor account—col.4, lines8-15).

The Applicant argues that Pintsov does not disclose delivering a billing mail piece from a creditor to a bill recipient, the billing mail piece including a bill and a bill-paying return mail piece. In response, the Examiner used Delfer for this limitation. Delfer discloses that the bill is mailed to the consumer, the remittance document is returned, the remittance document is scanned, and the then verified (fig.1).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
